The Promax PRO-ARC 200 DC Inverter Arc welder is designed to be used with the advanced IGBT and rapid recovery diode as its main control, transfer components and assisted with special developed control circuit, it has a uniform regulated welding current which enable the welding power source to achieve the adaptability to the excellent welding procedures.

Features:

- Portable IGBT VRD Inverter Stick Welder
- Power Indicator
- Thermal Protection
- Stepless Current Setting
- Hot Start
- Anti-Sticking
- ARC Force

It can weld a wide range of materials including low-carbon steel, stainless steel, high-tension steel, alloy steel and cast iron.

Input Power	Rated Input Current	Rated Input Capacity	No-Load Output Voltage	Output Range	Rated Output	Electrode Diameter	Weight	Dimension
220 V	37.2 A	9.2 KVA	68 V	30 - 200 A	60% @ 200 A	1.6 - 5.0 mm	5.4 Kg	360 x 150 x 270 mm
